

Client Feedback & Referrals

"Through many years of playground upgrades with multiple suppliers, Habitat Systems has proved itself time and time again to be our first choice of vendor. Habitat Systems has earned this spot with their top quality; play equipment, customer service, installation teams and service technicians. I would not hesitate to recommend Habitat Systems to any organization looking to install or upgrade playground equipment."

**Gary Cords, Manager - Facilities Department (Retired), School District #45
West Vancouver, BC**

"Working with Habitat Systems Inc. proved to be a very positive experience. They responded to all of our enquiries in a very timely fashion and were great at incorporating all our idea's and needs into the design of our playground. The children have been enjoying our playground at Cambridge Elementary for over a year now and we are looking forward to working with Habitat again in the future as we add further quality features full of play value to the current playground."

**Danielle Jimeno, PAC, Cambridge Elementary
Surrey, BC**

"Habitat Systems and LSI (Landscape Structures Inc.) provides excellent customer service. Professional expertise and advice is provided in a timely manner on recreation products and furnishings."

**Rick Daykin, Manager of Parks Service, City of Abbotsford
Abbotsford, BC**

"As Grounds Supervisor for the Vancouver School Board I have been associated with Jeff Musson and his team at Habitat Systems for well over 10 years. With play equipment and styles of children's play becoming more and more complex, I always found Habitat to be on the leading edge with their product selection and innovative ideas. Play equipment receive their greatest use on school grounds and Jeff has always been there to solve any problems I had with equipment and many times has come up with a better solution. It is very important when maintaining play equipment to have a supplier who has good inventory and can get those parts to you in a very timely fashion as schools can't afford to have play equipment out of action. Above all I have always appreciated the professional, business approach of Jeff and his team in making my job that much easier and me that much more effective."

**Chris Foxon, Ground Maintenance Supervisor (Retired), Vancouver School Board
Vancouver, BC**

Client Feedback & Referrals

"I am really happy with the product, particularly with the design and innovation. They have taken great steps to design exciting products that can stand up to other offerings. Habitat has an awesome staff that is very professional with very concerned installers. I am very pleased with Habitat and will continue to support them."

**Jeff Graham, City Development, City of Surrey
Surrey, BC**

"So far I have found with Habitat great service with Mike Dashney in dealing with one of our community groups as well as for myself with the Municipality. I am extremely happy with the variety that is offered through Habitat...they really stepped up to the plate and created a very unique structure that caught our eye instantly. My experience so far has been great."

**Adam Brown, Parks Technician, Regional Municipality of Wood Buffalo
Fort McMurray, AB**

"The little things make the difference. The big posters, the designs being delivered in the laughing tubes; every little bit counts. Habitat is a very professional company and I loved the interest they showed from the very first contact to the finish!"

**Trudy Lewis, Director, Parkland School
Red Deer, AB**

"Habitat was a great firm to work with. Jeff Musson gave us great advice and was patient with our very many questions. His staff is friendly and professional, and the product is excellent."

**Anna Gilmour, PAC, Kerrisdale Annex
Vancouver, BC**

"Our small parent committee had the lofty goal of creating an accessible play space at our school site, for our entire community to enjoy. Habitat's professionalism, expertise and teamwork enabled us to work through the many challenges of creating such a significantly sized project that as parents we had no previous experience from which to draw upon. Habitat aligned with our dream and has worked closely with us for over three years in order to bring this project to fruition. Our dreams are coming true thanks to Habitat."

**Diane Henley, PAC, Cedar Grove Elementary
Gibsons, BC**
