Memorial Park, located at 47th Avenue and Garry Street in Delta, BC is just one of 9 new playgrounds installed by Habitat Systems Inc. in the Delta area in the past 6 months. During the summer of 2003, Memorial Park had its second community playground installed, to compliment the senior playground installed in 2002. The newest playground, which was also installed by Habitat Systems Inc., was geared towards the needs of younger toddler-aged children in the area.

Rick Daykin, Superintendent of Park Projects, for the Corporation of Delta, was one of the primary individuals involved in the Memorial project. Memorial was one of 7 playgrounds included in a Request for Proposal (RFP) sent out by the Corporation of Delta in May of 2003. Rick stated that “by listening to the wants and needs of the parents, we were able to place specific requirements into the RFP for the second playground at Memorial.” Some of these requirements included having the second playground located close to the first, having appropriate play components for younger aged children and also having appropriate safety surfacing.

Delta received a total of 5 proposals in response to the RFP. These proposals were evaluated based on a variety of items which included previous playground experience, CSA approved components, quality

equipment, strong installation services and cost. Habitat Systems, based on the requirements outlined in the RFP, was selected to complete the Memorial Park project, in addition to the 6 other playgrounds included in the RFP.

When asked what advice Rick would give to parent groups who would like to begin a playground project, he stated that “it is very important to speak with the principal and school district as early as possible and then to secure a good site...and of course, talk to the kids! After all, the playground is for them and the components should be ones that they will enjoy”. For more information on the Delta playground projects, please contact Dave Warner at Habitat (604) 294-4224. ✓

Habitat Systems Provides Local Playground Support

✓ Chalmers Elementary • Delta, BC

✓ Heather-Dolphin Park • Richmond, BC

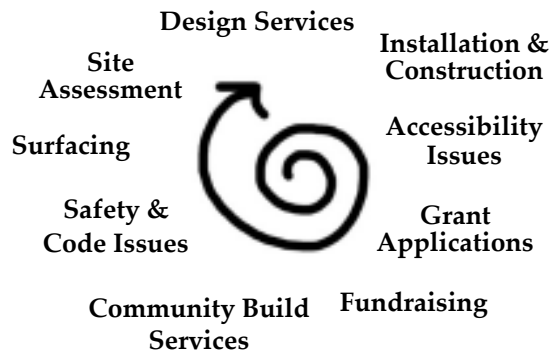

Habitat Systems Inc. is a distributor of outdoor recreation products in British Columbia, Alberta, Yukon, Northwest Territories and Nunavut. Habitat is entering its 8th year of operation and in that time has established itself as a preferred playground supplier in many school districts, municipal offices and landscape architecture firms. Habitat Systems Inc. strives to provide safe play environments where children have the opportunity to create, imagine, dream and learn together. ✓

Habitat's PAC support system has been designed and created to specifically address the service and support needs of Parent Advisory Councils.

Habitat's dedication to service and exceptional playground equipment has made a significant impact on PAC's buying decisions. PAC's have chosen Habitat's playground equipment repeatedly over other playground suppliers in Western Canada. Habitat strives to provide the very best service and appreciates the confidence and business of their customers.

Taking an educational approach, rather than a "sales" approach with PAC customers, Habitat's expert staff will take you through each stage of the playground planning process including the items listed below. ✓
