

Rhapsody®

Outdoor Musical
Instruments

Ages 2 to 5

Ages 5 and Up

Music is Joy

JOY THAT CAN BE HEARD AND FELT, whether it is bold or subtle, composed or random. Musical instruments offer a unique way for kids and adults to be creative and express themselves both physically and emotionally.

Rhapsody® Outdoor Musical Instruments from Landscape Structures invite kids and adults of all ages to join the band. This superior collection of chimes, metallophones and drums welcome polished musicians and musical newbies alike to explore the power of rhythm, experience subtle shifts in tone and discover the many ways individual sounds can be creatively combined.

The joy of making music can be enjoyed at any age. So we created two lines of Rhapsody Outdoor Musical Instruments: one sized for anyone age 5 years and older that are fully wheelchair accessible, and one sized just right for kids ages 2 to 5.

This playful and elegant collection
lends itself to any environment.

Rhapsody® Outdoor Musical Instruments
can be placed together for jamming,
or spread about individually. Their solo
sounds are just as beautiful as when
they are combined together.

We consulted with a musical advisor to ensure every instrument in this patent-pending collection achieves precision manufacturing and consistency in tones, elevating random jam sessions to grand concerts. Not only is the music quality top notch, so is the durability of these instruments, which can endure years of music-making in the elements.

Rhapsody Outdoor Musical Instruments are the perfect addition to playgrounds, community centers, schools, early childhood and childcare facilities, senior centers and other public spaces. This multigenerational activity encourages people of all ages and abilities to share their musical creativity, knowledge and joy with one another.

Grandioso® Chimes **Ages 5 and up**

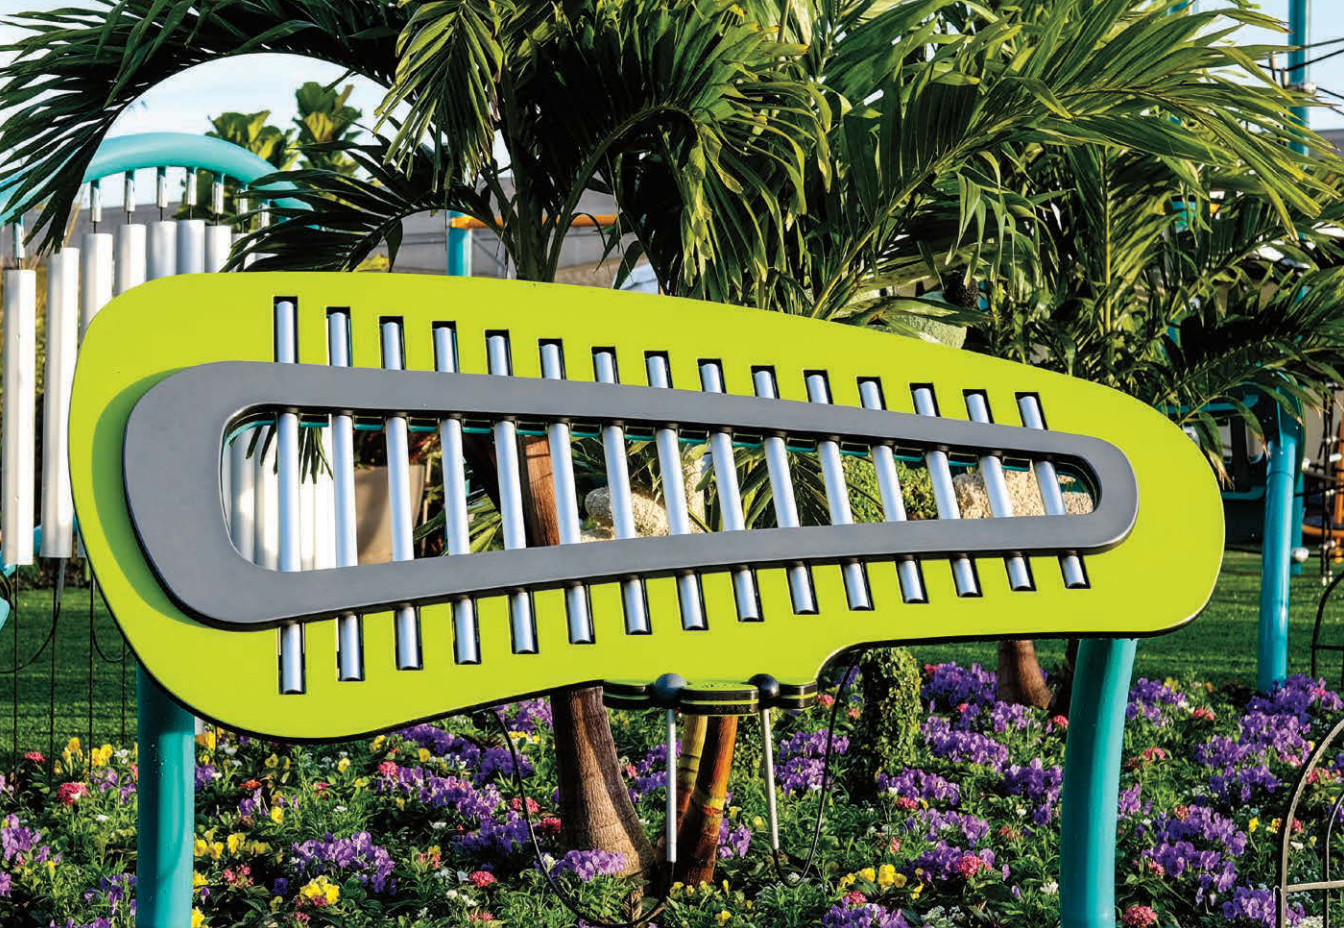

Players can soar two full octaves across this extravagant instrument, striking rich tones in a major key. Fully wheelchair accessible, everyone can take part in experiencing the great musical quality. Multiple mallets accommodate both solo performances and playing compositions with friends, new and old.

- Chimes made from anodized aluminum
- Choose one of 31 ProShield® colors for arches
- Choose one of 14 Permalene® colors for mallet holder and discs

#214442

Vivo® Metallophone **Ages 5 and up**

Grab a mallet and experience all 15 lush notes on this captivating instrument. Young and not-so-young musicians can create their own music or sound out familiar tunes together. Because it's fully inclusive, everyone gets a chance to play along.

- Tubes made from anodized aluminum
- Choose one of 31 ProShield® colors and two of 14 Permalene® colors

#214441

MADE FOR MUSIC

Sound quality is so important, and no detail is too small. For the left mallet, we selected the rubber that would optimize the tones along the left side. Then we did the same for the right mallet. Both mallets slip easily into holders so they don't have to touch the ground.

Animato® Metallophone Ages 5 and up

Flat bars make up the 15 major notes on this instrument, but the sound of each still resounds. Plink, plunk out a favorite tune. Or put your musical creativity together with a friend's and start scoring your own opus.

- Bars made from anodized aluminum
- Choose one of 31 ProShield colors and two of 14 Permalene colors

#214438

MADE TO LAST

The mallets are a critical part of the melodic instruments, so we manufactured them to stay in place. Attached to the instrument by coated steel cable, the mallets cannot be pulled out or cut off, ensuring they are available anytime budding musicians want to play.

Three Ways to Drum

Ages 5 and up

No kid (and very few adults) can resist a good drum, let alone three. Our high-quality drum skins are made from polycarbonate, textured on the underside for a professional finish. They've been tested to stand up to the rigors of play and temperature extremes, yet still deliver solid beats for years to come. While they're intended to be played with hands, we know kids—sticks are fine, too. All three are fully inclusive, welcoming the whole community to join in on the drum jam.

A. Kundu Drum

- Choose one of 31 ProShield® colors and one of 14 accent Permalene® colors

#214444

B. Kettle Drum

- Choose one of 31 ProShield colors and one of 14 accent Permalene colors

#214445

C. Goblet Drum

- Choose one of 31 ProShield colors and one of 14 accent Permalene colors

#214443

Music within Reach

Little ones can enjoy the same great sound, but now the instruments are a bit smaller and lower to the ground—right at their level. Ideal for childcare centers, preschools and other early childhood facilities, or anywhere you know tiny ones will want in on the action.

Warble™ Chimes **Ages 2 to 5**

Kids can bing and bong their way along one full octave on this richly toned instrument.

- Chimes made from anodized aluminum
- Choose one of 31 ProShield® colors for arches
- Choose one of 14 Permalene® colors for mallet holder

#228214

Jingle™ Metallophone **Ages 2 to 5**

Eight brilliant notes ring out from the tubes of this junior-sized instrument.

- Tubes made from anodized aluminum
- Choose one of 31 ProShield colors and two of 14 Permalene colors

#228213

Ditty™ Metallophone **Ages 2 to 5**

Little ones will enjoy making up tunes with the eight major notes these flat bars make.

- Bars made from anodized aluminum
- Choose one of 31 ProShield colors and two of 14 Permalene colors

#228212

Drums for Little Thumpers Ages 2 to 5

Younger kids get to enjoy the same quality drums, just at a lower level for easy reaching.

Kettle Junior Drum

- Choose one of 31 ProShield® colors and one of 14 accent Permalene® colors

Kundu Junior Drum

- Choose one of 31 ProShield colors and one of 14 accent Permalene colors

#228218

Goblet Junior Drum

- Choose one of 31 ProShield colors and one of 14 accent Permalene colors

#228215

The material difference

High-quality materials make the Rhapsody® Outdoor Musical Instruments great sounding, beautiful looking and long-lasting.

Anodized aluminum Corrosion resistant and slightly textured, this material also creates rich and resounding musical tones.

ProShield® finish A finish so tough, it substantially increases the durability of our products.

Rubber mallets Designed to optimize the sound of the notes within their reach.

Recycled Permalene® Available in a vivid spectrum of colors and continues to look new year after year.

Polycarbonate drum skins A professional finish produces quality sound, plus proven durability for continued fun.

Since 1971, Landscape Structures Inc. has been the leading manufacturer of commercial playground equipment in the world. The employee-owned company designs community and school playgrounds that encourage kids of all ages and abilities to learn persistence, leadership, competition, bravery, support and empathy through play. Landscape Structures pushes the limits—of design, inclusion, play—to help kids realize there is no limit to what they can do today and in the future. For a better tomorrow, we play today.
