CoolToppers®  
Shade Products

# Two ways to keep your cool

Landscape Structures shade products provide cool and reliable shade for any play, rest or activity area.

Years of industry experience in providing shade for some of the country's sunniest locales has led to the addition of SkyWays® Shade Products. Along with CoolToppers® Shade Products, they're the most versatile way to shade kids and families from up to 97 percent of harmful UV rays and keep structures as much as 30-degrees cooler on the steamiest of days.

Designed to meet the demands of both heat and sun, Landscape Structures shade products are the industry's gold standard in shade structures. Choose from two types of shade products: SkyWays offers the largest break from the sun, and CoolToppers connects to our PlayBooster® playstructures. All fabric panels are available in standard colors. See page 13 for color choices.

**SkyWays®** is our largest shade product under the sun. They're perfect for anywhere you need BIG amounts of shade—at the ball field, on the beach, in a parking lot. Choose from five standard styles, or completely customize your shade when you need that just-right fit. SkyWays large diameter posts are available in your choice of any standard ProShield® color.

**CoolToppers®** is the industry's first fully-integrated shade product designed to attach to PlayBooster® playstructures, or some can be used as standalone shade products at ground level. Choose from five styles and dozens of configurations—even a cool misting option! CoolToppers 5" diameter galvanized posts are available in your choice of any standard ProShield color.

## SkyWays Cantilever

### Fits anywhere

If you need lots of shade but don't have a lot of available ground space, the SkyWays Cantilever is exactly what you're looking for. Designed for spaces that need to keep posts to a minimum, this shade solution extends from posts on one side, creating a cool, open feel.

#### SkyWays Cantilever

- Available in two sizes in your choice of entry heights: 8', 10', 12' or 14'

**#216042 20' x 36' (2 posts)**

**#216044 20' x 72' (3 posts)**

## SkyWays Cantilever, Back-to-Back

### Double the shade protection

Center-positioned posts allow the shades to cantilever from the inside out, spreading shade all around. Enjoy big, big sun coverage that feels open and airy.

#### SkyWays Cantilever, Back-to-Back

- Available in two sizes in your choice of entry heights: 8', 10', 12' or 14'

**#216043 40' x 36' (2 posts)**

**#216045 40' x 72' (3 posts)**

## SkyWays Hip

### Goes with everything

The clean lines of the SkyWays Hip shade provide an ideal complement for any environment—playgrounds, outdoor seating, pool surrounds and nearby buildings. This cost-effective shade solution is available in a wide variety of sizes, making it a great value when you need sun coverage over large outdoor areas.

#### SkyWays Hip

- Available in 10 sizes in your choice of entry heights: 8', 10', 12' or 14'

**#215186 35' x 35'**

**#215188 40' x 50'**

**#215190 40' x 70' (6 post)**

**#215192 50' x 60'**

**#215194 60' x 60'**

**#215187 40' x 40'**

**#215189 40' x 60'**

**#215191 50' x 50'**

**#215193 50' x 70' (6 post)**

**#215195 60' x 70' (6 post)**

## SkyWays® Hexagon, Single Layer Panels Artistic Design

The SkyWays Hexagon Single Layer shade offers an alternative shape that can accommodate large, round areas. It is also the perfect complement for the spherical Evos® playsystem. The ability to incorporate two fabric colors adds to the design flexibility and ups the fun factor at the same time.

### SkyWays Hexagon, Single Layer Panels

- Available in four sizes in your choice of entry heights: 8', 10', 12' or 14'

**#216034 35' diameter**

**#216035 40' diameter**

**#216036 45' diameter**

**#216037 50' diameter**

## SkyWays Hexagon, Double Layer Panels Enjoy maximum coverage

Block even more sun with the overlapping panels of the SkyWays Hexagon Double Layer. Everyone underneath stays cool while appreciating the unique design aesthetic that's achieved when the fabric panels are layered on top of one another.

### SkyWays Hexagon, Double Layer Panels

- Available in four sizes in your choice of entry heights: 8', 10', 12' or 14'

**#216038 35' diameter**

**#216039 40' diameter**

**#216040 45' diameter**

**#216041 50' diameter**

## (left) SkyWays Custom Tension Sails Shade your way

Cover a space of any size or shape with SkyWays Custom Tension Sails. You'll work closely with our design team to create a custom recommendation that's spot-on for your space and shade requirements. Options also exist if you want to integrate shade posts into your playstructure.

### SkyWays Custom Tension Sails

- Custom designed to suit your application, environment and space

## CoolToppers® Single Post Shade

When flexibility matters most

Whether you're looking for shade on a structure or on the ground, with or without a water mister, you don't have to look any further than our CoolToppers Single Post Shade. It attaches to a PlayBooster® playstructure as an integrated component, or installs as a freestanding shade structure. Its generous size provides a large area of shade to block out harmful UV rays, keeping kids cool and safe. Plus, it's easy to install—a moveable clamp allows you to adjust tension after the post is set.

### CoolToppers Single Post Shade

- Shade dimension 12' x 12'
- Attaches to PlayBooster deck heights up to 72" or installs as a freestanding component at ground level (8' entry height)

**#154397A Freestanding** The freestanding model is available with a Cool Mister (see page 11).

**#154884A PlayBooster**

## CoolToppers Wave

Dive into this look

The CoolToppers Wave is perfect for blending the aesthetics of our modern arched Evos® playsystem together with the traditional straight lines of PlayBooster on the same playground. The shade topper provides the right amount of shade and UV protection, and the arched posts provide the right amount of flare.

### CoolToppers Wave

- Attaches to PlayBooster Square Deck heights up to 72"
- Shade dimension 7" x 7"

**#166081A PlayBooster**

## (right) CoolToppers Full Sail Dimensionally different

The flagship of our CoolToppers series keeps kids sun-safe all summer long. Four triangular sail panels add dimension and integrate into any PlayBooster playstructure. Use the same color for all panels, or mix and match to complement your design. Your choice of standard fabric colors and any ProShield® color for the posts.

### CoolToppers Full Sail

- Attaches to PlayBooster deck heights 24" to 72" or installs as a freestanding component at ground level (8' entry height at ground level)
- Shade dimension 18' x 18'

**#136759A Freestanding**

**#136488A PlayBooster for square deck**

**#176761A PlayBooster for Hex deck**

**(left) CoolToppers® Single Post Shade with Cool Mister**  
Instant cooldown

Enjoy must-have relief in hot, southern climates, or anywhere—plus instant FUN. Add a cool place to cool down with two 6 ½’-high spray heads. At the touch of a button, a fine cool water mist sends kids laughing, playing and screaming for more. The Cool Mister is available with or without the CoolToppers Single Post Shade as a freestanding component.

**CoolToppers Single Post Shade with Cool Mister**

- Requires hose connection (60 psi max water pressure)
- Attached junction box includes shut-off valve and filter

**#155072A CoolToppers Single Post Shade with Cool Mister**

**#155071A Cool Mister**

(single post, without CoolToppers Shade)

**CoolToppers Pyramid & Super Pyramid**

Large enough to shade an entire playstructure

A single piece of fabric provides maximum shade coverage for a variety of playstructures and sizes. Extend the fun by adding play panels to each of the 5” diameter posts, or cover a large picnic area. With the CoolToppers Pyramid and Super Pyramid, you’re covered.

**CoolToppers Pyramid**

- Available in three sizes in your choice of entry heights: 8’, 10’ or 12’

**#159881A-C 18’ x 18’**

**#159882A-C 24’ x 24’**

**#159883A-C 28’ x 28’**

**CoolToppers Super Pyramid (shown)**

- Entry height 13’ 9” only

**#159873A 30’ x 30’**

## Sustainable By Design

### SkyWays® and CoolToppers® fabric creates an island of sun-safe cool

Landscape Structures shade fabric is a breathable, weather-resistant material made of high-density polyethylene. Designed to block up to 97 percent of the sun's harmful UV rays and keep playground temperatures up to 30-degrees cooler, it's also resistant to mildew, fading and ultra-violet rays, making it a long-lasting, great-looking addition to your playground. We reinforce all corners with 16-ounce non-tear vinyl and all pockets with protective webbing where steel tubing enters or exits. Engineered for super durability.

#### Easy Care and Maintenance

- All Landscape Structures shades use corrosion-resistant steel fastening hardware.
- Fabric requires yearly washing using a power washer or water hose and a light detergent.
- Snowbelt states are encouraged to remove their shade fabric during the snow season.
- The SkyWays and CoolToppers designs permit fasteners to be easily removed for fabric storage.
- Each SkyWays and CoolToppers comes with complete, easy-to-follow installation and disassembly instructions.
- Cool Mister filter needs periodic cleaning.

#### Specifications

- CoolToppers shade products are engineered to withstand wind speed up to 90 mph and snow load up to 5 psf. Different specifications may be custom designed.
- SkyWays standard shade products are engineered to withstand wind speed up to 105 mph and snow load up to 5 psf. Different specifications may be custom designed.

**SkyWays and CoolToppers are not IPEMA certified.**

### Post Colors

ProShield® finish is specifically designed to withstand the demands of extreme heat, harsh climates, moisture and UV exposure. ProShield finish combines a specially formulated primer with a high-quality, architectural-grade, Super-Durable, TGIC polyester powdercoat. No lead-based paints.

LS  
landscape  
structures®

Since 1971, Landscape Structures Inc. has been the leading manufacturer of commercial playground equipment in the world. The employee-owned company designs community and school playgrounds that encourage kids of all ages and abilities to learn persistence, leadership, competition, bravery, support and empathy through play. Landscape Structures pushes the limits—of design, inclusion, play—to help kids realize there is no limit to what they can do today and in the future. For a better tomorrow, we play today.
